Children's Book Explains Epilepsy in a Musical Way

Orchestra in Our Brain: The Story of a Child with Epilepsy is the heartwarming tale of a little boy who has an epileptic seizure at school. How do you explain epilepsy to children?

Author Cynthia Fabian's character Coach describes how this illness affects 5-year-old Robert, by comparing the boy's brain to a symphony. After a student makes fun of Robert, Coach gives the children a lesson in music, describing the seizure as an *Orchestra in Our Brain*.

Coach tells how the brain works by using musical metaphors. He explains that the orchestra in Robert's brain was slightly off key and played a wrong note, resulting in the seizure. *Orchestra in Our Brain* is an important story that hits all the right notes.
