This Pooch Knows How to Sniff Out Trouble!

*Children's Book Features a
Bloodhound Detective and
Solve-It-Yourself Cases*

Did you know that the average dog's nose is tens of thousands of times more sensitive to odors than the human nose? This amazing fact is especially true for bloodhounds. A bloodhound can pick up a scent up to 12 days old! The species is often called "a nose with a dog attached," so they certainly make the best investigators.

In the colourfully illustrated book *The Casebook of Inspector Sniffabout*, children's brains will also be put to the test, as the great bloodhound detective Inspector Sniffabout is called to unravel all kinds of strange events and happenings. The book encourages children to read in an entertaining and fun way, and it allows them to use their own powers of deduction to work out the same mysteries Inspector Sniffabout is trying to solve.

Each story within the book is a self-contained mystery. Let your kids become detectives and see if they can guess how Inspector Sniffabout will solve the cases. It's time to sniff out the clues!
