### **Crumbling Manor House Sets the Stage for Celtic Mystery**

Three possible futures are explored in the thought-provoking novel *Dreams in Stone*. See what happens when a researcher for a newspaper inherits a rundown Tudor manor house named Stratwick Hall.

Alec lacks ambition, unlike his girlfriend and colleague, Trisha, a junior reporter. When he learns of his inheritance, the couple decide to spend the summer at the hall. Their arrival creates a stir in the conservative village because Alec is of mixed race, while Trisha has an Asian background. Alec discovers mysterious metal rings hanging on tree branches around a small pool in the grounds. One night he observes a woman appear to walk across the water to a tiny island, where she kneels before a small stone. Alec discovers the pool is an old Celtic site.

Trisha and Alec disagree over the future of the unconventional hall, unaware that the villagers have very different development plans in mind. The story shows how people see the past differently and that the decisions we make today will change the future.
