

FOR IMMEDIATE RELEASE – now available in softcover

Staten Island Author Changes The World By Changing History

A phenomenon in time and space ricochets you back into 1770 where a 21st century military academy plots revolutionary changes in *TIME FOR PATRIOTS*, by author Thomas Wm. Hamilton.

A botched physics experiment sends an entire military academy back in time. After embracing their fate, they collectively decide to use their newly found hindsight to rewrite American history.

Their mission begins when they wipe out the British army at the Battle of Bunker Hill, move on to free the slaves, change the voting rights for women and reveal a dramatic planetarium show of the Apollo landing. Their intention to right the wrongs of history causes tremendous changes, including changes to the United States Constitution. Their secret is compromised when Benjamin Franklin steals a twenty first century history book from their library. Centuries later, Columbia University professors are asked to write a book on the Revolution. During their research, they discover several anomalies, including a revealing letter from Mozart's librettist. Do the professors uncover the academy's secret and reveal it to the world? Or does a mysterious stranger stop them in their tracks?

"Time for Patriots is a fascinating look into a world changed by knowledge from the future." – Christopher Nuttall, Producer and Managing Editor *Changing the times, the online Alternate History magazine.*

"Time for Patriots is a splendid first novel by an author — already a serious scientist — who has the potential to be a most formidable sci-fi author. It is a highly imaginative story which reveals both a grasp of science and history" – Bernard J, Sussman, lawyer & librarian.

***TIME FOR PATRIOTS* is available in hardcover (ISBN: 978-1-60693-224-7, \$25.00) and softcover (ISBN: 978-1-61204-656-3, \$14.50) and can be ordered through the publisher's website: <http://sbpra.com/ThomasWmHamilton> or at www.amazon.com or www.barnesandnoble.com.**

About the Author:

Thomas Wm. Hamilton is a retired astronomer who taught college for 32 years and was involved in writing reports for the Apollo Program. He has written two books in the computer field, was an editor of a planetarium newsletter and is currently a columnist for an international journal for planetarium professionals. In addition to his extensive background in astronomy, his experience in a military academy and love of history propelled this imaginative book. He grew up in New York City and currently lives in Grymes Hill, Staten Island.

Strategic Book Publishing and Rights Co, LLC
