Is the Voice You Hear Your Conscience, Or Is It Something Else?

From an early age, Henry Lawson hears voices. He attributes one to the Sable Shadow, a confidant of the devil, and the other to The Presence, a representative of God. He believes his life becomes a “board game” between these two powerful influences.

Sable Shadow & The Presence is the fictional autobiography of a bright, but introverted and slightly insecure young man, one who studies the writings of Jean-Paul Sartre. He begins to see life in existential terms, although this does not infringe on his rudimentary Christian beliefs. Upon Henry’s entry into the business world, he receives vital guidance from Sable Shadow, and advances to a high corporate level. With his career nearly at its peak, Henry suffers a series of devastating tragedies and attempts suicide. With the help of his wife and a psychiatrist, with whom he engages in philosophical dialogue, he constructs a completely new identity to

overcome his past. But will this identity escape the influence of Sable Shadow?

This thought-provoking, psychological novel is rich in triumph and tragedy, success and failure, good and evil. It is a modern day look at *Paradise Lost*.
